EduTouch

INTERACTIVE EDUCATION SOLUTION

Create an interactive and collaborative learning environment within the classroom with our EduTouch Solutions, specifically designed for education!

AVAILABLE SIZES:
65", 75", 86" & 98"

FEATURES

- 4K Ultra high-definition display
- Integrated Android interface with touch control
- Note for Android Whiteboard functionality
- Web browsing
- 20 Point touch
- UHD resolution (3840 x 2160)
- Optional OPS
- Toughened glass (Mohs Scale Level 7)
- Anti-Glare glass
- 7 Year warranty
- Windows and macOS compatible
- Optional USB Wireless Screenshare Dongle
- Dual-Band WiFi with Hotspot and Bluetooth

4K Ultra HD Display

20 Point Touch

Anti-Glare Glass

7 Year Warranty

Specifications:

CPU: Intel Core i5
Memory: 8GB DDR4
Display: Intel UHD Graphics
Storage: 1 x 256GB M.2 Drive
Network: Realtek Gigabit network card, Dual Band Wi-Fi Adaptor
Audio: Realtek HD audio
Operating System: Windows
Ports: 1 x HDMI, 1 x DP, 1 x USB-C, 4 x USB3.0, 1 x LAN, 1 x audio in, 1 x audio out

Optional i5 PC Module
(Upgrade to Core i7 +
Wi-Fi Dongle)

Bytello Share allows for wireless display and touch control with Mac and Windows and wireless display from Android and iOS devices.

EduTouch Mobile Solutions

EST05 Electronic Height Adjustable Mobile Solution

- Stable and safe
- Compatible with the EduTouch 55"-86" Interactive Panels
- Electronic height adjustment
- Easy to move - omni directional wheels
- Flexible storage
- Removable tray
- All metal design, simple and durable

ST33 Mobile Stand

- Stable and safe
- Compatible with the EduTouch 55" - 86" Interactive Panels
- 3 setting manual height adjustment
- Easy to move
- All metal design, simple and durable

EST04 Automated Stand

- Compatible with the EduTouch 55" - 86" Interactive Panels
- Electronic height adjustment
- Fixed on wall and floor
- Stable and safe
- All metal design, simple and durable

EduTouch

INTERACTIVE EDUCATION SOLUTION

Educational Software included with all EduTouch Interactive Solutions

All EduTouch Panels include:
Note Interactive Software, Snowflake
and 4 hours of basic training.

Students can access lessons 24/7 from anywhere!

IG3 Maths Intervention System (Grade K-8)

The IG3 Maths Intervention System (Grade K-8), previously known as Eduss Maths, has been designed around the principles of individualised learning, and providing students with learning plans based on an in-depth assessment designed to determine a student's true level of understanding. The assessment algorithm is unique, and the use of Artificial Intelligence allows it to not merely assess whether a student meets the minimum requirement or pass rate, it accurately determines every student's proficiency level.

Printable
Reports

Curriculum
Designer

User-friendly

- Teachers & Administrators can upload student details individually or in bulk via csv files to assign them to a class.
- Create individualised assessments (choose topics, exercises, grade level and pass rate).

Curriculum Designer

- The curriculum designer allows any school, school type, state, district or country to amend the curriculum layout, to meet their required standards. These changes can be made to Stands, Sub-strands, topics, sub-topics and exercises, including the grade levels they apply to.
- The alignment and lesson descriptions will automatically filter through to reporting.
- The current system covers both Imperial and Metric standards and includes currency lessons for Australia, the USA and South Africa.

Multi-Dimensional Assessment

- The IG3 Maths Intervention System features a thorough adaptive and differentiated Multi-Dimensional Assessment that identifies individual student learning gaps & level of understanding to guide them back to grade-level proficiency.
- The Assessment incorporates engaging instruction methods using visuals paired with audio to accommodate various learning styles.
- Teachers can keep track of student performance and the system provides a detailed report per student which includes estimated intervention timeframes to bring a student back to the required level and address learning gaps.

The IG3 Maths Intervention System learning plans include Interactive lessons combined with step-by-step instructions, formative reviews, continuous progress monitoring and reporting. Teachers can set specific learning plans for students in the classroom and effortlessly monitor their progress. The system provides tools required to effectively manage classes with students' varied learning rates, and whilst it is a perfect remedial tool for struggling students, it makes provision for the more advanced students, by effectively taking them beyond their mandated year level.

Individualised Learning Plans

- Once the Multi-Dimensional Assessment is completed, a detailed individualised learning plan is developed, tailored specifically to each student.
- The Individualised learning plan enables Teachers to work with the remedial and gifted student at the same time in the same class.
- The learning plan is designed to meet the needs of different learning styles.

Self-paced Learning

- Students have access to a structured and comprehensive educational program; the solution provides detailed learning plans on each subject allowing students to learn at their own pace.
- Set homework and practice lessons for students to complete anywhere, on their own time, and track individual student progress.
- Real time interactive exercises.
- Limited multiple-choice as an exercise format to focus on the students' true level of knowledge and understanding.
- Practice questions are dynamically generated to eliminate patterns due to repeat assessments.
- Independent learning section as part of an exercise lesson or as a standalone tool to introduce different learning topics to individual students.

Progress Monitoring & Reporting

- Real-time monitoring and mapping through one integrated reporting interface making it easy to track and monitor the activity of each student.
- Printable progress reports for individual students.
- Continuous monitoring and reporting of student progress, such as time-spent per exercise, percentage of assessments and learning plans completed.

IG3 English Literacy Intervention System (Grade K-10)

The IG3 English Literacy Intervention System (Grade K-10), previously known as Eduss English & Phonics, has been designed around the principles of individualised learning, and providing students with learning plans based on an in-depth assessment designed to determine a student's true level of understanding. The assessment algorithm is unique, and the use of Artificial Intelligence allows it to not merely assess whether a student meets the minimum requirement or pass rate, it accurately determines every student's proficiency level.

Read Me!
 Designed and produced by practising teachers

ReadMe™ is a literacy tool designed and produced by practising English Teachers!

ReadMe™ is a literacy tool that can be effectively used by all teachers. The idea for ReadMe™ evolved through years of experience, teaching English literacy classes in upper Primary to lower Secondary.

- Bringing together advanced teaching techniques and modern technology, the lessons capture students attention.
- Comprehensive programme of 27 lessons that cover basic grammar skills, poetry analysis and text types.
- ReadMe™ suits a wide audience. As the lesson content is drawn from subjects across the curriculum, diversity and wide appeal is guaranteed.
- Students who are reluctant readers do not always engage with lessons presented in the “chalk & talk” manner; ReadMe™ offers an alternative.

THE LANGUAGE MARKET

The best all-in-one tool to learn languages in the classroom or at home!

Platform independent.
Compatible with all web
browsers on all devices!

The Language Market program is self-paced and ideal for independent learning as well as for small groups in multi-level classes. This means it can also be used as an effective motivational tool for slower learners as well as highly computer literate learners. Students complete hundreds of enjoyable, practical activities and puzzles. The Language Market combines sight and sound to create an effective interactive teaching tool that makes learning a second language GREAT FUN! Using The Language Market, students will learn to understand and converse in other languages quickly and easily.

Key Elements

- Over 6000 spoken words per language
- Thousands of interactive animated screens to keep students engaged
- Animated characters speak with authentic accents
- Total immersion in the language
- Translations available for all spoken audio
- Requires continued student response
- Vocabulary banks and talking dictionary
- Provides opportunities for problem solving and intelligent guessing
- Tips and hints available throughout activities
- Personalised printable score certificates instructions.
- Progressive built-in scoring system
- Each activity is scored, however it is possible to repeat activities any number of times in order to achieve a higher score for the unit.

The Language Market is designed by language teachers, using native speakers.

Covers a whole year of classroom structured learning, suitable for all ages and learning capabilities.

On screen translations to English are available throughout the system.

The Language Market products are installed in over 4,500 schools throughout Australia and New Zealand.

INTERACTIVE EDUCATION SOLUTION

NUIEQ Snowflake transforms the classroom into an interactive learning environment.

NUIEQ SNOWFLAKE

NUIEQ Snowflake is a fun educational suite of interactive multitouch applications designed to help kids learn while they play! Snowflake is the only educational technology software allowing you to divide your touchscreen into independent, personalized zones. Snowflake transforms the classroom into a fun, motivating, and engaging active learning environment.

Snowflake enables teachers and students to tell engaging, interactive stories that align closely with the curriculum, it provides a safe community for online and small group collaboration, and it allows simultaneous personalized instruction making curriculum relevant to students' lives.

- **BLENDED/FLIPPED**

Activities during class

- **PROJECT-BASED LEARNING**

Create an adventure with Lesson Lists

- **TEACHER PROFESSIONAL DEVELOPMENT**

With online courses and videos

- **LEARNING STATIONS**

For small groups in upright and tabletop settings

- **MULTIPLE MEANS OF PRESENTATION**

Keep slides, websites, videos, and activities always visible

- **STANDARDS ALIGNMENT**

Lessons made for Teachers by Teachers

- **STUDENT VOICE**

Less typing, more formative feedback

- **CONCEPT MAPPING**

Organize relevant content in Nodes

- **PROBLEM-BASED LEARNING**

Supports truly independent inquiry in Zones

- **DIGITAL CURATION**

By teachers and students

- **STEAM LABS, MAKER SPACES**

With active content and mobile creation

- **ACCESSIBILITY**

Guided access, voice recording, dyslexia friendly font, and color overlays. 40+ supported languages, including English, Spanish, Arabic, Chinese, and more.
